PROFESSIONAL SUMMARY

Second-year Electrical and Computer Engineering (ELCE) student passionate about Web Development, Artificial Intelligence, and Data Structures & Algorithms. Currently building projects to strengthen practical development skills and exploring modern technologies including React, Node.js, and AI-powered applications. A continuous learner interested in problem-solving, technology, collaboration, and building meaningful digital experiences.

EDUCATION

Bachelor of Technology / Engineering

Electrical and Computer Engineering (ELCE)

ABES Engineering College, Ghaziabad, Uttar Pradesh

Expected Graduation: 2029 · Pursuing (2nd Year)

SKILLS

Programming: C++, Python, JavaScript

Web Development: HTML, CSS, React, Tailwind CSS, Bootstrap

Tools: Git, GitHub, VS Code

Currently Learning: Advanced JavaScript, Node.js, Data Structures and Algorithms, Artificial Intelligence, AI-powered Applications

PROJECTS

Amazon Clone

- Developed a frontend e-commerce interface inspired by Amazon.
- Practiced responsive web design and frontend development.
- Technologies: HTML, CSS, JavaScript

Tourist Guide Website

- Built a website to help users explore tourist destinations and travel information.
- Practiced frontend development and user interface design.
- Technologies: HTML, CSS, JavaScript

CERTIFICATIONS & ACHIEVEMENTS

- GitHub Student Developer Pack recipient
- JavaScript Algorithms and Data Structures Certification
- Participated in college technical communities, clubs, and workshops
- Built multiple web development projects

COMMUNITIES & ACTIVITIES

Technical community and college club involvement; interested in Web Development, Artificial Intelligence, Data Structures and Algorithms, Hackathons, and Open Source.
